EXPERIENCE

Caprizo Consulting / Remote

May 2026 – Present

Founding Software Engineer & Frontend/AI Architect

- Architected and deployed responsive user interfaces (HTML, Tailwind CSS, JavaScript), improving cross-page consistency and boosting user engagement metrics.
- Directed Azure-aligned architecture decisions to ensure high system availability, scalability, and long-term maintainability.
- Streamlined inquiry intake by developing Google Apps Script integrations, eliminating manual data handling and enabling instantaneous structured data capture.
- Optimized IT and operations workflows through comprehensive documentation and troubleshooting, significantly reducing blocker resolution time for delivery teams.

Contract/Consulting / *Remote*

Jan 2026 – Feb 2026

Healthcare Data & AI Quality Engineer

- Ensured 100% data accuracy in eligibility, enrollment, and benefits workflows by evaluating AI-generated healthcare administrative outputs.
- Validated complex member and plan data extraction from unstructured sources to ensure data integrity for downstream healthcare processing.
- Enforced stringent HIPAA compliance through precise PHI/PII redaction and meticulous administrative rule validation.
- Engineered robust evaluation rubrics and documented failure patterns to iteratively refine and harden validation logic against edge cases.

tabitha.dev / *Remote*

Jan 2020 – Present

Full-Stack & AI Engineer Freelancer

- Developed and deployed full-stack solutions and responsive web applications (HTML, CSS, JS, Tailwind CSS) for clients.
- Integrated automation workflows using Google Apps Script and Sheets to improve client efficiency and reduce manual work.
- Spearheaded AI-focused projects, performing data validation, prompt review, and quality assessment of AI-generated outputs.
- Translated client goals and brand identity into clean, user-friendly digital experiences.

Providence Healthcare Management / *Remote*

Mar 2019 – Oct 2022

Remote Managed Care Billing Specialist

- Reduced claims processing time by 20% by implementing workflow optimizations and systematic data reviews.
- Increased first-pass claim acceptance rates by analyzing denial patterns and institutionalizing corrected workflows.

TECHNICAL PROJECTS

MediTab - Healthcare Dashboard *(React, Node.js, PostgreSQL)*

Developed a HIPAA-compliant healthcare coordination platform featuring role-based access control and real-time KPI analytics dashboards.

Healthcare Denial Pattern Analysis Tool *(Python, SQL)*

Automated healthcare denial root-cause categorization to drastically reduce manual review cycles and improve reporting accuracy.

Weather Outfit Advisor Multi-Agent System *(Python, Vertex AI)*

Engineered a multi-agent recommendation system using Python and Vertex AI to deliver personalized output via coordinated intelligent agents.
